C4443

Armrest

## Sleek and stylish

Eastside creates a sleek and stylish working environment for cutting-edge global businesses.

Eastside Air automatically supports an individual's spinal print. The tension of the mesh adjusts according to the force placed on the backrest by the user.

With its elegant touch and modern design, Eastside matches the task chairs ranges and can be used as a visitor chair.

C8375 EASTSIDE BEAM (VP, 05, WM), FUSION RECEPTION COUNTER (W0), FLEXBOX STORAGE (260)

D2550 | EASTSIDE 4-LEG CHAIR WITH ARMREST (AT17, WM), FUSION DESK (AT, 320) AND COUNTER (WY), PLEASE TASK CHAIR WITH HEADREST (AT17)

C3595

## Reception and waiting room

Ideal for your reception areas or waiting rooms, Eastside Beam comes in 2 to 4 chairs, with or without armrests, with a tablet as an option. For heavily used areas, the plain back version and Softex upholstery are easy to clean.

Eastside 4-leg in combination with Fusion reception counter and Please task chair offers a reception desk a welcoming set.

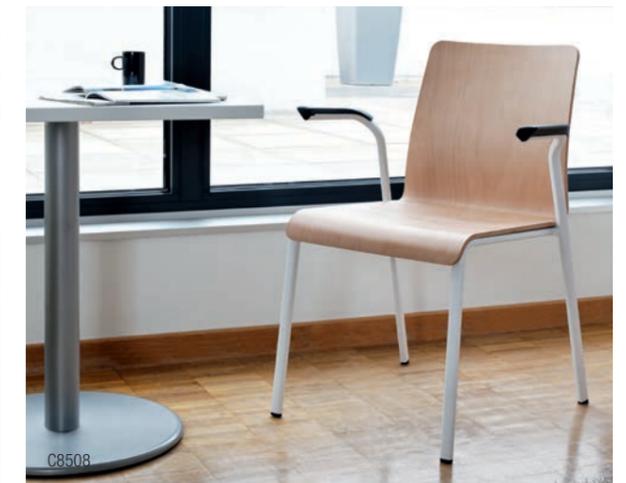

## Flexible and versatile

Eastside is a great alternative seating solution fitting in-between space, cafeteria as well as reconfigurable meeting spaces.

Eastside 4-leg on castor is an ideal solution for reconfigurable spaces and meeting areas.

With its elegant finishes, Eastside wood offers a nice look and feel for informal areas such as cafeterias and coffee areas.

## SUSTAINABILITY

### DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

### LIFE CYCLE ASSESSMENT

During our products development process we consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. Thanks to the Life Cycle Assessment (LCA) method, Steelcase quantified Eastside environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

### MATERIALS

16% recycled content by weight.

Weight: only 6.3 kg.

No PVC.

100% recycled cardboard and 30% recycled LDPE film (Low Density Polyethane) in packaging.

Water-based inks without solvent on packaging.

### PRODUCTION

Powder coat painting: VOC-free and free of heavy metals.

Unused powder paint is re-injected into the painting process.

Water-based polyurethane foam.

### TRANSPORT

Manufactured close to customers, in Europe.

Light seat, delivered stacked.

Minimised packaging weight and volume.

### USE

Designed for a long product life.

To optimise Eastside's product life, some parts are replaceable.

No toxic substances in our eco-labelled textiles.

Maintenance information available at [steelcase.com](http://steelcase.com).

### END OF LIFE

Up to 98% recyclable by weight.

100% recyclable cardboard and film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective.

### CERTIFICATIONS

To show continuous improvements, we communicate Eastside environmental performance through voluntary environmental labels and declarations. Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.

### PRODUCT

EPD - Environmental Product Declaration

NF Environnement

### MATERIALS

OekoTex 100 - Confidence in textiles

European Eco-Label - for textiles

### PLANTS

ISO 14001 - Environmental management system

OHSAS 18001 - Occupational Health and Safety Assessment Series
